

GLM Lasermeßtechnik GmbH – Magnetic Targets

Magnetic targets for 3D surveying

The special adapters are ideal for measuring edges. The adapters are magnetic so they can easily be positioned on the measuring object. These lightweight targets are easily transportable and are useful for any surveying job in industrial environments.

Side wall target adapters

Description

Reflective sheets

length 70 mm, width 30 mm, 10 mm edge, universal, equipped with RS20T

Code No.

OMS5100828
